Pedicle, tube, combination flap and, Nov., 242
Pedicle flap, distant, for hand, Nov., 227-252
design of, Nov., 235-237
"fishmouth" tubed, Nov., 244
for hand, donor sites for, Nov., 230-234
dressings for, Nov., 238
modifications of, Nov., 239-250
permanent subcutaneous, Nov., 223
positioning of hand for, Nov., 237
vascular resilience of, Nov., 242
Pedicle flap replacement, for hand, indications for, Nov., 227-229
Pedicle tissue, storage of, Nov., 239
Pelvis, fractures of, July, 78
hypovolemic shock in, July, 15
injuries of, July, 129
with peripheral nerve injuries, July, 116
Peripheral nerve, laceration of, with fractures of shaft of humerus, July, 155. See also *Nerve* and *Nerve injury.*
Petechial rash, in fat embolism, July, 15
Phantom limb. See also *Causalgia.*
painful, physiology of, Nov., 487-488
psychological factors in, Nov., 488-494

Phantom limb (*Continued*)
psychiatric aspects of pain and, Nov., 481-495
treatment of, Nov., 494-495
Plating, compression, July, 151-167
technique of, July, 164-166
Pleurocutaneous wounds, July, 66
Plexus, brachial, injuries of, Nov., 399-417. See also *Brachial plexus.*
Pneumonitis, accumulation, with severe cerebral injury, July, 111
aspiration, July, 28
Pneumonostasis, with severe cerebral injury, July, 111
Pneumothorax, tension, in multiply injured patient, July, 64-65
pO_2, in fat embolism, July, 17, 18
Posterior tibial artery, laceration of, with fractures of shaft of tibia, July, 162
Postoperative care, in severely injured patient, July, 43-46
Postoperative complications, in severely injured patient, July, 44
Preisser's necrosis, of scaphoid and lunate, Nov., 299
Premedication, in severely injured patient, July, 28
Preoperative evaluation, in severely injured patient, July, 23-29
Proximal interphalangeal joint, fracture dislocation of, Nov., 267
stiffness of, surgical treatment in, Nov., 478
traumatic arthritis of, Nov., 291-297
operative treatment in, Nov., 294-297
Pseudocyst, with renal trauma, July, 89
Pulmonary function, in traumatic shock, July, 8-9. See also *Chest* and *Lung.*

QUADRIPLEGIA, in anesthetized patient, July, 32
Quervain's disease, Nov., 380-381

RADIAL nerve, injury of, in closed crush injuries, Nov., 255
Radial nerve palsy, tendon transfer in, Nov., 439-445
with fracture of shaft of humerus, July, 155
with other paralysis, Nov., 444-445
Radiographic examination, in acute cerebral injury, July, 109
in blunt abdominal injuries, July, 52
in brachial plexus injury, Nov., 410
of chest, in fat embolism, July, 17
Radius, fractures of, compression plating in, July, 164
Rash, petechial, in fat embolism, July, 15
Reflex dystrophy, sympathetic pain and, Nov., 257-258
treatment of, Nov., 258
Reflexes, axon, in brachial plexus injury, Nov., 411
Regional anesthesia, in hand surgery, Nov., 207-211
in severely injured patient, July, 40
Regional block, intravascular double tourniquet, in hand surgery, Nov., 209
Reimplantation, of severed limbs, Nov., 390
Renal vascular hypertension, in genitourinary injuries, July, 90. See also *Kidney.*
Respiration, paradoxical, anesthesia and, July, 37
Respiratory. See also *Chest* and *Lung.*
Respiratory infection, postoperative, July, 44
Respiratory obstruction, in severely injured patient, July, 21
Respiratory tract, burns of, July, 40
Resuscitation, emergency, in severely injured patient, July, 21-23
Ribs, fractures of, July, 63-64
Rotation flaps, Nov., 221

SCAPHOID, and lunate, silicone rubber implants in replacement of, Nov., 299-309
Scaphoid implant, Nov., 300-303
Scar collagen, wound healing and, Nov., 326-327
Scar tissue, remodeling of, wound of hand and, Nov., 329-332
Sciatic nerve, laceration of, with fractures of shaft of femur, July, 159
Sedation, preoperative, in hand surgery, Nov., 211-212
Seldinger's technique, in arteriography, in upper extremity disorders, Nov., 395
Septic felon, management of, Nov., 458
Shock, blood replacement in, July, 5-8
during anesthesia administration, in head injury, July, 33
hypovolemic, evaluation of, July, 23
in fractures of pelvis, July, 15
spinal cord injury and, July, 140
traumatic, management of, July, 3-11
with severe cerebral injury, July, 111
"Shock lung" syndrome, July, 44
Shoulder, arthrodesis of, in flail anesthetic arm, following brachial plexus injury, Nov., 413
fractures and dislocations of, with peripheral nerve complications, July, 117-120
Shoulder-hand syndrome, in closed crush injuries, Nov., 257

"Side swipe" elbow, July, 123
Silastic cuff, in nerve repair, in hand and forearm, Nov., 427
Silastic rubber implants, flexor tendon grafting and, Nov., 331
in replacement of scaphoid and lunate, Nov., 299-309
in traumatic arthritis of proximal interphalangeal joint, Nov., 293
Skeletal injury, anesthesia and, July, 38
Skin grafting, incisions and amputations and, in hand, Nov., 213-218
Slings, in hand infections, Nov., 457
Sores, pressure, with spinal cord injury, July, 147
Spinal injury, cervical, anesthesia and, July, 35
complications following, July, 147
distortion of physical findings and, July, 139-140
immobilization of spine in, July, 144
in multiply injured patient, July, 137-149
management of, in acute phase, July, 141-143
neurologic aspects and management of, July, 138-143
postacute care and rehabilitation in, July, 143-148
surgery in, July, 142
Spleen, injury to, management of, July, 55
Splint, Bunnell "safety pin," Nov., 370
Splinting, in burns of hand, Nov., 315
in patient with stiff hand, Nov., 471
"Sports car" elbow, July, 123
Stab wounds, abdominal, July, 58
Steroids. See *Corticosteroid hormones.*
Stiff hand, exercise in, Nov., 469
operative treatment in, Nov., 475
splinting in, Nov., 471
treatment of, Nov., 467-480
Stomach, aspiration of, in severely injured patient, July, 26
decompression of, anesthesia and, July, 26
perforation of, management of, July, 56
Straddle injury, July, 78
Stricture, urethral, July, 88, 89
Succinylcholine, in burn patients, July, 39
Sudeck's atrophy, in closed crush injuries, Nov., 257
Supraclavicular injuries, Nov., 403
Sympathectomy, upper extremity, post-traumatic vascular disorders and, Nov., 393-398
upper thoracic, in post-traumatic vascular disorders of upper extremity, Nov., 396
Sympathetic pain, reflex dystrophy and, Nov., 257-258
Synovitis, tenosynovitis and, Nov., 379-380

TAMPONADE, cardiac, in blunt chest injury, July, 65
Tendon, extensor, characteristics of, injury and, Nov., 336
injury to, gliding function following, Nov., 332
Tendon avulsion, in closed crush injuries of hand and forearm, Nov., 254
Tendon graft, free, hand function and, Nov., 328-329
selection of, Nov., 364
Tendon transfer, for median and ulnar nerve palsy, Nov., 447-454
in radial nerve palsy, Nov., 439-445
technique of, Nov., 441-444
incisions in, Nov., 436
muscles for, Nov., 436
planning of, Nov., 435
postoperative care in, Nov., 438
principles of, Nov., 433-438
timing of, Nov., 434
Tendonitis, Nov., 376-379
Tenosynovitis, digital, acute suppurative, management of, Nov., 462
synovitis and, Nov., 379-380
Tension pneumothorax, July, 64-65
Tetanus, following injury, Nov., 465
Thenar flaps, Nov., 222
Thigh, upper, injury of, July, 130
Thoracic injuries, July, 61-74. See also *Chest.*
Thoracoabdominal wounds, July, 67
diagnosis and treatment of, July, 79
Thrombosis, local, of hand, arteriography in, Nov., 393
Thumb, extensor tendons of, injury to, Nov., 349
Tibia, fracture of, closed reduction in, July, 164
medullary fixation of, July, 179-182
shaft of, fractures of, July, 161-164
compression plating in, July, 166
ligamentous injuries with, about knee, July, 162
Toxins, bacterial, infections of hand and, Nov., 455
Trachea, in thoracic injuries, July, 62
Tracheobronchial injury, anesthesia and, July, 36
Traction, in fractures of hand, Nov., 264
Transposition flaps, Nov., 221
Trapeziometacarpal joint, traumatic arthritis of, Nov., 285

Trapezium implant arthroplasty, indications for, Nov., 286-287
postoperative care in, Nov., 291
technique of, Nov., 287-290
Trauma, abdominal, with multiple injuries, July, 49-59
massive emergency treatment in, July, 52-54
multiple, abdominal exploration in, July, 53
to upper extremity, sympathectomy and, Nov., 393-398
urinary tract. See *Genitourinary injuries.*
type of, in hand and forearm, nerve repair and, Nov., 423
Trauma patient, problems peculiar to, July, 29-40
Traumatic arthritis, of joints of hand, arthroplasty in, Nov., 285-298
Traumatic degeneration, following nerve injury, Nov., 422
Traumatic neuritis, of arm, Nov., 255-256
Tube pedicle, combination flap and, Nov., 242

ULNA, fractures of, compression plating in, July, 164
medullary fixation of, July, 185
Ulnar and median nerve palsy, tendon transfer in, Nov., 447-454
Ulnar and median nerves, high paralysis of, Nov., 452
repair of, function following, Nov., 428
Ulnar nerve, compression or fixation of, in injury to elbow, Nov., 255
high paralysis of, Nov., 452
low paralysis of, Nov., 449
Ulnar post, skin coverage for, Nov., 244
Ureter, blunt trauma to, management of, July, 85
dismembered, complications of, July, 89
Urethra, anterior, rupture of, complications of, July, 88
management of, July, 81-82
membranous-prostatic, rupture of, complications of, July, 89
management of, July, 82-84
prostatic, injury to, anatomical aspects of, July, 76
Urethrocystography, July, 80
Urinalysis, in genitourinary injuries, July, 80
Urinary. See *Genitourinary.*
Urine, examination of, in abdominal trauma, July, 53
fat in, detection of, July, 16
output of, in traumatic shock, July, 8
Urinoma, in genitourinary injuries, July, 89
Urogenital diaphragm, injury to, anatomical aspects of, July, 75
Urography, intravenous drip infusion, July, 80
Urologic injury, management in, July, 55

VASCULAR disorders, post-traumatic, of upper extremity, therapy in, Nov., 396-397
upper extremity sympathectomy and, Nov., 393-398
Vascular injuries, of upper extremities, Nov., 383-392
Vasomotor dystrophy, reflex, of hand, arteriography in, Nov., 393
Venous pressure, central, in severely injured patient, July, 23
in traumatic shock, July, 7
Ventilation, maintenance of, in severely injured patient, July, 21
Viscera, hollow, injury to, management of, July, 55
injuries to, with peripheral nerve complications, July, 115-117
Vital signs, monitoring of, during anesthesia, July, 42
Volkmann's ischemic contracture, with elbow injuries, July, 126
with fracture of humerus, July, 100

WALLERIAN degeneration, following nerve injury, Nov., 421
Wound healing, in hand surgery, Nov., 325-334
Wounds, penetrating, of neck, anesthesia and, July, 33
of upper abdomen, anesthesia and, July, 33
pleurocutaneous, July, 66
stab, abdominal, July, 58
sucking, of chest, July, 66
thoracoabdominal, July, 67
Wrist, and hand, injuries of, with peripheral nerve damage, July, 127-129
extensor tendon injuries at, Nov., 351
flexor tendon injuries at, within carpal canal, Nov., 359

X-RAY. See *Radiographic.*
